Slow Down in Housing Areas

A new 6th Area Support Group traffic code, designed to slow down traffic in residential areas on post, will soon be enforced according to community officials. The changes will include reducing vehicle speed to 20 kilometers per hour in residential areas and to a walking pace in parking lots. A traffic survey, conducted earlier this year, indicated speeding drivers to be the main vehicular traffic violation in Stuttgart. With school in recess for the summer, there will be more pedestrians and vehicles sharing the same space and the risk of an accident increases. The general speed limit on post will remain 30 kilometers per hour. Watch for new signs.
